Journal of Neuroimmunology, 25 (1989) 268–269
Elsevier

Author Index (Vol. 25)

Abrams, G.A., see Lyman, W.D. (25) 195
Abramsky, O., see Ovadia, H. (25) 109
Arezzo, J.C., see Brosnan, C.F. (25) 227
Arnason, B.G.W., see Chelmicka-Schorr, E. (25) 203
Asadourian, L.L.H., see Jennings, M.T. (25) 7

Baba, H., Daune, G.C., Ilyas, A.A., Pestronk, A., Cornblath, D.R., Chaudhry, V., Griffin, J.W. and Quarles, R.H.
Anti-G_{M1} ganglioside antibodies with differing fine specificities in patients with multifocal motor neuropathy (25) 143
Baig, S., see Link, H. (25) 1
Baker, D., see Butter, C. (25) 169
Becker, I. and Roggendorf, W.
Monoclonal antibody analysis of major histocompatibility complex expression in human meningiomas (25) 161
Benveniste, E.N., Sparacio, S.M. and Bethea, J.R.
Tumor necrosis factor-α enhances interferon-γ-mediated class II antigen expression on astrocytes (25) 209
Bethea, J.R., see Benveniste, E.N. (25) 209
Brosnan, C.F., Litwak, M.S., Schroeder, C.E., Selmaj, K., Raine, C.S. and Arezzo, J.C.
Preliminary studies of cytokine-induced functional effects on the visual pathways in the rabbit (25) 227
Brück, W. and Friede, R.L.
Activation of macrophages by recombinant interferon-γ has no effect on myelin phagocytosis but hinders invasion of nerves in organ culture (25) 47
Butter, C., Healey, D.G., Baker, D. and Turk, J.L.
A quantitative immunocytochemical study of the infiltrating lymphocytes in the spinal cord of guinea pigs with chronic relapsing experimental allergic encephalomyelitis (25) 169

Campbell, J.L., see Cross, R.J. (25) 29
Chaudhry, V., see Baba, H. (25) 143
Chelmicka-Schorr, E., Kwasniewski, M.N., Thomas, B.E. and Arnason, B.G.W.
The β-adrenergic agonist isoproterenol suppresses experimental allergic encephalomyelitis in Lewis rats (25) 203
Cornblath, D.R., see Baba, H. (25) 143
Cross, R.J., Campbell, J.L. and Roszman, T.L.
Potentiation of antibody responsiveness after the transplantation of a syngeneic pituitary gland (25) 29
Cserr, H.F., see Harling-Berg, C. (25) 185

Daune, G.C., see Baba, H. (25) 143
De Micco, C.
Immunology of central nervous system tumors (25) 93
Drachman, D.B., see McIntosh, K.R. (25) 75

Ebrahim, S.A.D., see Jennings, M.T. (25) 7
Eiraku, N., see Ijichi, S. (25) 251

Friede, R.L., see Brück, W. (25) 47

Gillard, B.K., see Marcus, D.M. (25) 255
Goranov, I., see Staykova, M. (25) 117
Griffin, J.W., see Baba, H. (25) 143

Harling-Berg, C., Knopf, P.M., Merriam, J. and Cserr, H.F.
Role of cervical lymph nodes in the systemic humoral immune response to human serum albumin microinfused into rat cerebrospinal fluid (25) 185
Hayosh, N.S., Karpus, W.J. and Swanborg, R.H.
Effector cells of autoimmune encephalomyelitis in the rat belong to the CD4-positive, OX22-adherent T cell subset (25) 57
Healey, D.G., see Butter, C. (25) 169
Hsi, B.P., see Marcus, D.M. (25) 255
Huang, S.K. and Sriram, S.
Spontaneous development in vitro of a myelin basic protein-specific suppressor T cell line (25) 177

Ijichi, S., Eiraku, N., Osame, M., Izumo, S., Kubota, R., Maruyama, I., Matsumoto, M., Niimura, T. and Sonoda, S.
Activated T lymphocytes in cerebrospinal fluid of patients with HTLV-I-associated myelopathy (HAM/TSP) (25) 251
Ilyas, A.A., see Baba, H. (25) 143
Iwasaki, Y., see Konno, H. (25) 151
Izumo, S., see Ijichi, S. (25) 251

Jennings, M.T., Ebrahim, S.A.D., Thaler, H.T., Jennings, V.D.V.L., Asadourian, L.L.H. and Shapiro, J.R.
Immunophenotypic differences between normal glia, astrocytomas and malignant gliomas: correlations with karyotype, natural history and survival (25) 7
Jennings, V.D.V.L., see Jennings, M.T. (25) 7

Journal of Neuroimmunology, 25 (1989) 270–273
Elsevier

Subject Index (Vol. 25)

Ameboid microglia
Ia antigen; Interferon-γ; Cytofluorometry; Astrocyte, type 1 and type 2; Oligodendrocyte (Sasaki, A. (25) 63)

Antibody
Motor neuropathy; Ganglioside; G_{M1} ganglioside (Baba, H. (25) 143)

Antibody production
Cervical lymph; Cerebrospinal fluid; Immunoglobulin G (Harling-Berg, C. (25) 185)

Anti-ganglioside
Neuropathy; Enzyme-linked immunosorbent assay (Marcus, D.M. (25) 255)

Antigen-presenting cell
Major histocompatibility complex class II; Wallerian degeneration; Microglia (Konno, H. (25) 151)

Antigen-specific suppression
Myasthenia gravis; Suppressor macrophage; Cyclosporine A (McIntosh, K.R. (25) 75)

Astrocyte
Major histocompatibility complex; Tumor necrosis factor; Interferon-γ (Benveniste, E.N. (25) 209)

Astrocyte, type 1 and type 2
Ia antigen; Interferon-γ; Cytofluorometry; Oligodendrocyte; Ameboid microglia (Sasaki, A. (25) 63)

Astrocytoma
Malignant glioma; Neuroectodermal tumor antigen; Cytogenetics; (Prognosis) (Jennings, M.T. (25) 7)

B cell
Chronic relapsing experimental allergic encephalomyelitis; T cell; CD4; CD8; Infiltration; (Guinea pig) (Butter, C. (25) 169)

Blood–brain barrier
Immunoglobulin; Mononuclear cell; Cerebrospinal fluid; Multiple sclerosis (Link, H. (25) 1)

Glioma; Tumor immunology; Central nervous system tumor (De Micco, C. (25) 93)

Catecholamine
Interleukin-1; Pyrogen; Neurotoxin; Paraventricular nucleus (Ovadia, H. (25) 109)

CD4
Chronic relapsing experimental allergic encephalomyelitis; T cell; B cell; CD8; Infiltration; (Guinea pig) (Butter, C. (25) 169)

CD8
Chronic relapsing experimental allergic encephalomyelitis; T cell; B cell; CD4; Infiltration; (Guinea pig) (Butter, C. (25) 169)

Central nervous system-invading effector cell
Experimental autoimmune encephalomyelitis; Lymphocyte; Inflammation (Lyman, W.D. (25) 195)

Central nervous system tumor
Glioma; Tumor immunology; Blood–brain barrier (De Micco, C. (25) 93)

Cerebrospinal fluid
Immunoglobulin; Mononuclear cell; Blood–brain barrier; Multiple sclerosis (Link, H. (25) 1)

Antibody production; Cervical lymph; Immunoglobulin G (Harling-Berg, C. (25) 185)

Human T lymphotropic virus type I (HTLV-I); Myelopathy; T lymphocyte, activated; HTLV-I-associated myelopathy/tropical spastic paraparesis (HAM/TSP) (Ijichi, S. (25) 251)

Cervical lymph
Antibody production; Cerebrospinal fluid; Immunoglobulin G (Harling-Berg, C. (25) 185)

Chemiluminescence
Myelin phagocytosis; Recombinant interferon-γ; Migration inhibition; Macrophage, non-resident; Organ culture (Brück, W. (25) 47)

Chronic relapsing experimental allergic encephalomyelitis
T cell; B cell; CD4; CD8; Infiltration; (Guinea pig) (Butter, C. (25) 169)

Corticosterone
Lymphocyte proliferation; Immune response; Footshock; Stress (Jessop, J.J. (25) 241)

Cyclosporine A
Myasthenia gravis; Suppressor macrophage; Antigen-specific suppression (McIntosh, K.R. (25) 75)

Cytofluorometry
Ia antigen; Interferon-γ; Astrocyte, type 1 and type 2; Oligodendrocyte; Ameboid microglia (Sasaki, A. (25) 63)

0165-5728/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

Cytogenetics
Astrocytoma; Malignant glioma; Neuroectodermal tumor antigen; (Prognosis) (Jennings, M.T. (25) 7)

Cytokine
Pathophysiology; Retina; (Rabbit) (Brosnan, C.F. (25) 227)

Demyelination
Experimental allergic encephalomyelitis; Myelin basic protein; Neurological signs; Passive transfer; Peripheral nervous system; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Multiple sclerosis; Oligodendrocyte; Plaque; Major histocompatibility complex class II; Myelin-associated glycoprotein; Remyelination (Lee, S.C. (25) 261)

Enzyme-linked immunosorbent assay
Anti-ganglioside; Neuropathy (Marcus, D.M. (25) 255)

Experimental allergic encephalomyelitis
Host-versus-graft reaction (Staykova, M. (25) 117)

Demyelination; Myelin basic protein; Neurological signs; Passive transfer; Peripheral nervous system; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Experimental allergic encephalomyelitis, suppression
T cell receptor (Huang, S.K. (25) 177)

Sympathectomy; Isoproterenol (Chelmicka-Schorr, E. (25) 203)

Experimental allergic neuritis
Mast cell; Nedocromil sodium (Seeldrayers, P.A. (25) 221)

Experimental autoimmune encephalomyelitis
T cell subset; Interferon-γ (Hayosh, N.S. (25) 57)

Lymphocyte; Inflammation; Central nervous system-invading effector cell (Lyman, W.D. (25) 195)

Footshock
Lymphocyte proliferation; Immune response; Stress; Corticosterone (Jessop, J.J. (25) 241)

Ganglioside
Motor neuropathy; Antibody; G_{M1} ganglioside (Baba, H. (25) 143)

Glioma
Tumor immunology; Blood–brain barrier; Central nervous system tumor (De Micco, C. (25) 93)

Growth hormone
Thymus; Prolactin; Luteinizing hormone; Pituitary gland (Spangelo, B.L. (25) 37)

Host-versus-graft reaction
Experimental allergic encephalomyelitis (Staykova, M. (25) 117)

HTLV-I-associated myelopathy/tropical spastic paraparesis (HAM/TSP)
Human T lymphotropic virus type I (HTLV-I); Myelopathy; T lymphocyte, activated; Cerebrospinal fluid (Ijichi, S. (25) 251)

Human T lymphotropic virus type I (HTLV-I)
Myelopathy; T lymphocyte, activated; Cerebrospinal fluid; HTLV-I-associated myelopathy/tropical spastic paraparesis (HAM/TSP) (Ijichi, S. (25) 251)

Ia antigen
Interferon-γ; Cytofluorometry; Astrocyte, type 1 and type 2; Oligodendrocyte; Ameboid microglia (Sasaki, A. (25) 63)

Immune response
Pituitary graft; Plaque-forming cell; Immunofluorescence (Cross, R.J. (25) 29)

Lymphocyte proliferation; Footshock; Stress; Corticosterone (Jessop, J.J. (25) 241)

Immunofluorescence
Pituitary graft; Immune response; Plaque-forming cell (Cross, R.J. (25) 29)

Immunoglobulin
Mononuclear cell; Cerebrospinal fluid; Blood–brain barrier; Multiple sclerosis (Link, H. (25) 1)

Immunoglobulin G
Antibody production; Cervical lymph; Cerebrospinal fluid (Harling-Berg, C. (25) 185)

Immunohistochemistry
Meningioma; Major histocompatibility complex antigen expression (Becker, I. (25) 161)

Infiltration
Chronic relapsing experimental allergic encephalomyelitis; T cell; B cell; CD4; CD8; (Guinea pig) (Butter, C. (25) 169)

Inflammation
Experimental autoimmune encephalomyelitis; Lymphocyte; Central nervous system-invading effector cell (Lyman, W.D. (25) 195)

Interferon-γ
Experimental autoimmune encephalomyelitis; T cell subset (Hayosh, N.S. (25) 57)

Ia antigen; Cytofluorometry; Astrocyte, type 1 and type 2; Oligodendrocyte; Ameboid microglia (Sasaki, A. (25) 63)

Astrocyte; Major histocompatibility complex; Tumor necrosis factor (Benveniste, E.N. (25) 209)

Interleukin-1
Pyrogen; Neurotoxin; Catecholamine; Paraventricular nucleus (Ovadia, H. (25) 109)

Isoproterenol
Sympathectomy; Experimental allergic encephalomyelitis (Chelmicka-Schorr, E. (25) 203)

Luteinizing hormone
Thymus; Prolactin; Growth hormone; Pituitary gland (Spangelo, B.L. (25) 37)

Lymphocyte
Experimental autoimmune encephalomyelitis; Inflammation; Central nervous system-invading effector cell (Lyman, W.D. (25) 195)

Lymphocyte proliferation
Immune response; Footshock; Stress; Corticosterone (Jessop, J.J. (25) 241)

Macrophage, non-resident
Myelin phagocytosis; Recombinant interferon-γ; Migration inhibition; Chemiluminescence; Organ culture (Brück, W. (25) 47)

Major histocompatibility complex class II
Wallerian degeneration; Microglia; Antigen-presenting cell (Konno, H. (25) 151)

Multiple sclerosis; Oligodendrocyte; Plaque; Demyelination; Myelin-associated glycoprotein; Remyelination (Lee, S.C. (25) 261)

Major histocompatibility complex antigen expression
Meningioma; Immunohistochemistry (Becker, I. (25) 161)

Astrocyte; Tumor necrosis factor; Interferon-γ (Benveniste, E.N. (25) 209)

Malignant glioma
Astrocytoma; Neuroectodermal tumor antigen; Cytogenetics; (Prognosis) (Jennings, M.T. (25) 7)

Mast cell
Experimental allergic neuritis; Nedocromil sodium (Seeldrayers, P.A. (25) 221)

Meningioma
Major histocompatibility complex antigen expression; Immunohistochemistry (Becker, I. (25) 161)

Microglia
Major histocompatibility complex class II; Wallerian degeneration; Antigen-presenting cell (Konno, H. (25) 151)

Migration inhibition
Myelin phagocytosis; Recombinant interferon-γ; Macrophage, non-resident; Chemiluminescence; Organ culture (Brück, W. (25) 47)

Mononuclear cell
Immunoglobulin; Cerebrospinal fluid; Blood–brain barrier; Multiple sclerosis (Link, H. (25) 1)

Motor neuropathy
Antibody; Ganglioside; G_{M1} ganglioside (Baba, H. (25) 143)

Multiple sclerosis
Immunoglobulin; Mononuclear cell; Cerebrospinal fluid; Blood–brain barrier (Link, H. (25) 1)

Oligodendrocyte; Plaque; Demyelination; Major histocompatibility complex class II; Myelin-associated glycoprotein; Remyelination (Lee, S.C. (25) 261)

Myasthenia gravis
Suppressor macrophage; Cyclosporine A; Antigen-specific suppression (McIntosh, K.R. (25) 75)

Myelin-associated glycoprotein
Multiple sclerosis; Oligodendrocyte; Plaque; Demyelination; Major histocompatibility complex class II; Remyelination (Lee, S.C. (25) 261)

Myelin basic protein
Demyelination; Experimental allergic encephalomyelitis; Neurological signs; Passive transfer; Peripheral nervous system; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Myelin phagocytosis
Recombinant interferon-γ; Migration inhibition; Macrophage, non-resident; Chemiluminescence; Organ culture (Brück, W. (25) 47)

Myelopathy
Human T lymphotropic virus type I (HTLV-I); T lymphocyte, activated; Cerebrospinal fluid; HTLV-I-associated myelopathy/tropical spastic paraparesis (HAM/TSP) (Ijichi, S. (25) 251)

Nedocromil sodium
Mast cell; Experimental allergic neuritis (Seeldrayers, P.A. (25) 221)

Neuroectodermal tumor antigen
Astrocytoma; Malignant glioma; Cytogenetics; (Prognosis) (Jennings, M.T. (25) 7)

Neurological signs
Demyelination; Experimental allergic encephalomyelitis; Myelin basic protein; Passive transfer; Peripheral nervous system; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Neuropathy
Anti-ganglioside; Enzyme-linked immunosorbent assay (Marcus, D.M. (25) 255)

Neurotoxin
Interleukin-1; Pyrogen; Catecholamine; Paraventricular nucleus (Ovadia, H. (25) 109)

Oligodendrocyte
Ia antigen; Interferon-γ; Cytofluorometry; Astrocyte, type 1 and type 2; Ameboid microglia (Sasaki, A. (25) 63)

Multiple sclerosis; Plaque; Demyelination; Major histocompatibility complex class II; Myelin-associated glycoprotein; Remyelination (Lee, S.C. (25) 261)

Organ culture
Myelin phagocytosis; Recombinant interferon-γ; Migration inhibition; Macrophage, non-resident; Chemiluminescence (Brück, W. (25) 47)

Paraventricular nucleus
Interleukin-1; Pyrogen; Neurotoxin; Catecholamine (Ovadia, H. (25) 109)

Passive transfer
Demyelination; Experimental allergic encephalomyelitis; Myelin basic protein; Neurological signs; Peripheral nervous system; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Pathophysiology
Cytokine; Retina; (Rabbit) (Brosnan, C.F. (25) 227)

Peripheral nervous system
Demyelination; Experimental allergic encephalomyelitis; Myelin basic protein; Neurological signs; Passive transfer; Polyradiculitis; Remyelination (Pender, M.P. (25) 125)

Pituitary gland
Thymus; Prolactin; Growth hormone; Luteinizing hormone (Spangelo, B.L. (25) 37)

Pituitary graft
Immune response; Plaque-forming cell; Immunofluorescence (Cross, R.J. (25) 29)

Plaque-forming cell
Pituitary graft; Immune response; Immunofluorescence (Cross, R.J. (25) 29)

Polyradiculitis
Demyelination; Experimental allergic encephalomyelitis; Myelin basic protein; Neurological signs; Passive transfer; Peripheral nervous system; Remyelination (Pender, M.P. (25) 125)

Prolactin
Thymus; Growth hormone; Luteinizing hormone; Pituitary gland (Spangelo, B.L. (25) 37)

Pyrogen
Interleukin-1; Neurotoxin; Catecholamine; Paraventricular nucleus (Ovadia, H. (25) 109)

Recombinant interferon-γ
Myelin phagocytosis; Migration inhibition; Macrophage, non-resident; Chemiluminescence; Organ culture (Brück, W. (25) 47)

Remyelination
Demyelination; Experimental allergic encephalomyelitis; Myelin basic protein; Neurological signs; Passive transfer; Peripheral nervous system; Polyradiculitis (Pender, M.P. (25) 125)

Multiple sclerosis; Oligodendrocyte; Plaque; Demyelination; Major histocompatibility complex class II; Myelin-associated glycoprotein (Lee, S.C. (25) 261)

Retina
Cytokine; Pathophysiology; (Rabbit) (Brosnan, C.F. (25) 227)

Stress
Lymphocyte proliferation; Immune response; Footshock; Corticosterone (Jessop, J.J. (25) 241)

Suppressor macrophage
Myasthenia gravis; Cyclosporine A; Antigen-specific suppression (McIntosh, K.R. (25) 75)

Sympathectomy
Experimental allergic encephalomyelitis; Isoproterenol (Chelmicka-Schorr, E. (25) 203)

T cell
Chronic relapsing experimental allergic encephalomyelitis; B cell; CD4; CD8; Infiltration; (Guinea pig) (Butter, C. (25) 169)

T cell receptor
Experimental allergic encephalomyelitis, suppression (Huang, S.K. (25) 177)

T cell subset
Experimental autoimmune encephalomyelitis; Interferon-γ (Hayosh, N.S. (25) 57)

Thymus
Prolactin; Growth hormone; Luteinizing hormone; Pituitary gland (Spangelo, B.L. (25) 37)

T lymphocyte, activated
Human T lymphotropic virus type I (HTLV-I); Myelopathy; Cerebrospinal fluid; HTLV-I-associated myelopathy/tropical spastic paraparesis (HAM/TSP) (Ijichi, S. (25) 251)

Tumor immunology
Glioma; Blood–brain barrier; Central nervous system tumor (De Micco, C. (25) 93)

Tumor necrosis factor
Astrocyte; Major histocompatibility complex; Interferon-γ (Benveniste, E.N. (25) 209)

Wallerian degeneration
Major histocompatibility complex class II; Microglia; Antigen-presenting cell (Konno, H. (25) 151)
